

Cao Viet Thang

Full Stack Developer

Nha Trang, Viet Nam | Phone: [+84368844581](tel:+84368844581)

Linkedin: [Thang Cao Viet](#) | Email: cvthang56th2@gmail.com

Summary

Full Stack Developer with over 7 years of experience architecting, developing, and maintaining scalable and high-performance web applications. Proficient in modern web technologies including React.js, Vue.js, Node.js, and AWS services. Adept at both front-end and back-end development with a strong eye for pixel-perfect UI and clean, maintainable code. Skilled in Agile/Scrum methodologies and experienced in leading teams, mentoring junior developers, and conducting code reviews.

Passionate about clean architecture, SOLID principles, performance optimization, and automation testing. Proven track record of delivering results, whether as a team player or independent contributor. Actively contributes to open-source and freelance projects and is currently exploring AI and SaaS product development.

Experiences

BetaMind Inc. – Tokyo, Japan

Full Stack Developer | Jun 2024 – Apr 2025

- Built and maintained core front-end components using React.js and AWS Serverless stack (Lambda, DynamoDB, API Gateway).
- Led the team in the “Spice – Smart Rirekisho” AI-powered resume platform; managed sprints, performed code reviews, and delivered on tight deadlines.
- Integrated OpenAI features to enhance UX for job seekers.
- Improved UI performance and consistency across multiple devices and browsers.
- Key Projects:
 - [Milogos](#): Built management and relationship subsystems
 - [Spice](#): Led development of an AI-driven smart resume (Rirekisho) builder application

TTEK Inc. – Ho Chi Minh City, Vietnam

Frontend Developer (Vue.js) | Jul 2023 – Jul 2024

- Developed reusable UI components for [RiskLab](#), a risk management platform for border control agencies.
- Modified and extended socket.io for real-time monitoring.
- Actively contributed to architectural decisions and documentation.

9thWonder Vietnam – Nha Trang, Vietnam

Full Stack Developer | Jun 2018 – Jun 2023

- [Watch me at 9thWonder Vietnam](#)
- Worked on 15+ client and internal projects across a variety of stacks. Promoted from Junior to Senior-level roles and trusted with both development and mentoring tasks.
- Highlighted Projects:
 - [Mazi](#): Full-featured production/talent management system (Vue.js + Node.js + MongoDB + AWS)
 - Email Validation Checker: Internal tool to validate HTML email templates
 - Cypress Template: Automation testing base template using Cypress + Cucumber
 - Wordpress websites: built modules, custom widgets all in perfect-pixel manner, optimized performance, created helper plugins, contributed testing suites. Lived sites: [BrainCare](#), [ExakTime](#), [Gravina Windows](#), [Syndeo Institute](#), [BabcockPower](#)
 - [Encompass](#): used Gatsby.js to build React Static Site Generator, so it's really fast.
 - [XOS Simulator](#): Solo developer; built Vue 3 UI simulating X camera hardware
 - VIOC Oil Change: MySQL query optimization (20M+ records), boosted API speed by 10x
 - [Honda Powersport](#): Converted Figma to HTML with animations and pixel-perfect design

Freelance Experience (2019 – Present)

- Led or contributed to multiple freelance and personal projects across diverse domains:
- Highlighted Projects:
 - Shopee CRM & Analytics: Vue + NestJS app for e-commerce management
 - DAO Chat & DAO Management: React/Vue apps for media company internal tools
 - [Hotato Extension](#): Chrome extension for Shopee product analysis
 - [SnootySims](#): High-traffic WordPress site for Sims 4 content (10K+ daily users)
 - [Link and Cluster Plugin](#): WordPress SEO tool; acted as both lead dev and project manager

Hobbies

- Music: Enjoy playing instruments and singing
- Sports: Football, badminton, running (half & full marathons, trail runs)
- Tech: AI, automation, clean architecture, testing strategies
- Personal Growth: Always learning — currently preparing for AWS Solutions Architect Associate
